Thanks for the quick response. Lab fraud is a continuing background concern and I plan do more splits with your help.

Subject: RE: split sampling events with AF

Hello James-

TL did split sampling at George/Norton on the dates listed below:

George

GW Split Sampling - November 1999

Diieldrin Soil Split Sampling - March 2000

GW Split Sampling - April 2000

Current Skeet Range Soil Sampling - August 2000

GW Split Sampling - October 2000

Norton

GW Split Sampling - April 2001

All of the split sampling events described above were on the old contract. FYI- We have a field crew ready and able to conduct any split sampling you may need in the future. In addition to conducting groundwater and soil sampling our field folks can set transducers, collect water and air samples. We can also convert any information into GIS or create a database.

Cheers,

Indira

Hi Indira,
Can you provide all the dates of when we did split sampling with AF
for
George and Norton? If not, I can request from our records center in
San
Mateo to see the actual dates of the SAPs you develop. Thanks.
